

# **Practical guidelines for starting an institutional repository (IR)**

## **Step 1**

Formulate a digital preservation policy using open access, open standards and open systems.

## **Step 2**

Decide on a hostname (URL) for the repository. This name should be simple to remember and easy to type into documentation. Ensure the name will never change. This is vital for visibility on the web.

[http://wiki.lib.sun.ac.za/index.php/SUNScholar/Capacity\\_Planning](http://wiki.lib.sun.ac.za/index.php/SUNScholar/Capacity_Planning)

## **Step 5**

Install DSpace software and complete DSpace configurations.

<http://wiki.lib.sun.ac.za/index.php/SUNScholar/Dspace>

## **Step 6**

Plan for disaster recovery.
