NeDICC in collaboration with the North-West University and Talarify
invites you to participate in
the first **Library Carpentry Workshop** in Africa
lead by Prof Cameron Macdonell from MacEwan University, Canada.

The workshop is aimed at Librarians interested to learn skills relevant to the Library of the Future:

- Understanding the international Library Carpentry landscape
- Tools for cleaning data - OpenRefine
- Tools for collaboration – Git and GitHub

The workshop will also include a lesson sprint to familiarise participants with lesson design and contribution
to allow further development of materials relevant to the South African Library Community

No prior programming experience is required. Everyone is welcome. Limited space available.

Dates: 25 & 26 August   **Cost**: R1000 p/p (VAT excluded)
Time: 9:00 – 17:00 daily   **Registration**: http://goo.gl/forms/BOTLLtn8x1txkTil2
Venue: CSIR, Pretoria Campus   **Enquiries**: mvandeve AT csir DOT co DOT za
