Faculty of Business and Management Sciences

CAPE TOWN CAMPUS
MANAGEMENT & PROJECT MANAGEMENT DEPARTMENT
TEL: (021) 460 4293

Conference

September 2019 Venue

= CPUT

Leadership and Management in Project driven industries – South Africa

Great leaders do not follow footprints left by harbingers, they are themselves the harbingers that create the footprints for others to follow.

.

..

MODELING AFRICA OUT OF CHRONIC POVERTY –

this is the maturation of a continent. The destiny of this continent is in the hands of its own people, and Africans need to move the continent forward.

Africa doesn't need theorists, Africa needs pragmatic academics that translate research to tangible deliverables.

LAMIPIISA seeks to fill in that gap and by providing a platform to model Africa out of poverty

.

MODELING AFRICA OUT OF CHRONIC POVERTY –

this is the maturation of a continent. The destiny of this continent is in the hands of its own people, and Africans need to move the continent forward.

Africa doesn't need philosophers and political thinkers, Africa needs pragmatic academics that translate research to tangible deliverables.

LAMIPISA seeks to fill in that gap and by providing a platform to model Africa out of poverty **The conference is divided into 2 sessions;**

- a. 4th and 5th – general papers / topics [6 sessions / time],
- b. 6th - Africa Session; Specific Problems and Solutions
- c. 7th – Robben Island; visit [the Mandela cell / Sobukwe Village]

GUIDELINES FOR THE SUBMISSIONS

Two submissions will be made, the second submission is dependent on the acceptance of the first submission.

1st SUBMISSION – THE ABSTRACT

The abstract is to be submitted by the 15th of August 2019 ; Guide to the abstract submission

1. Title of the paper typed in Arial font size 11 in caps
2. Full name of the author starting with the title, surname and initials
3. E-mail addresses of the authors or corresponding authors,
4. Authors affiliation [organization] is to be put below the email
5. 250 – 300 words for the abstract excluding key words,
6. Between 4 – 6 key words or phrases under the abstract itself.

2nd SUBMISSION – THE MANUSCRIPT

The second submission is the manuscript by the 15th of August 2019, for those with accepted abstracts. Following are expectations from the authors by the editor. Take note that the accepted abstract will be part of the manuscript (final submission) as stipulated in the table below. The length of the paper; 4 500 – 6 000 words

Please see paper format from JOLMS link below;

1. Abstract	2. Introduction
3. Background [literature review]	4. Problem statement
5. Research objectives	6. Research design / methodology
7. Findings and interpretation	8. Conclusion

All graphs and tables should be correctly labeled and sources referenced according to the Harvard method. All in text references must have surnames [no initials], year and page numbers for easy cross checking. All papers will be subjected to double blinded peer reviewing.

SUBMISSION OF ABSTRACTS OR MANUSCRIPTS.

8	Models (Finance –people for self-development – capitalization of the <i>unbankable</i> masses)
9	Models (Rural development – skills development – food security – poverty alleviation)
10	Models (Education – skilling a nation – education for development – role of education?)
11	Models (Xenophobia & racism- causes and solution to these, note impact on development)
11	Open – groundbreaking models on any discipline relating to leadership and development

THINK ABOUT THIS;

If you woke up one morning to find that you are actually the president of your country – tasked with the responsibility to move your people from their misery – what would you do? LAMIPISA CONFERENCE is the only academic conference on the continent which is based on solving development problems on the continent. Essentially,

LAMIPISA – Modeling Africa Out Of Chronic Poverty is for thinkers. **Solve the African problems [or your own outside of Africa] use the chart below.;**

Country	Status
Ghana 60 years	Formerly Gold Coast [population 25 – 27 million], 60 years independence, 2 nd largest gold country – rich in diamonds, bauxite, manganese, etc and exports them unprocessed 60 years after independence. Doesn't manufacture a pin!!!!!!!!!!!!
Nigeria 57 years	Most populous country in Africa [184 million] and 7 th most populous worldwide, 57 years of independence' rich in oil [largest on continent], gold, iron ore, bitumen, uranium, coal, but can't make a needle!!!!!!!!!!!!!!
DRC 57 years	Formerly Zaire and now 57 years independence, population of 68 million, has the least developed infrastructure, rich in cobalt, copper, diamond, tantalum, tin, bauxite, gold and exports all minerals [no beneficiation] can't make a staple pin!!!!!!!!!!!!!!.

Zimbabwe 37 years	37 years of independence = Once Africa's bread basket now depends on food aid, had Africa's most balanced economy, world's largest producer of asbestos and tobacco, rich in iron ore, copper, uranium, platinum, tin, zinc 3 rd largest gold producer on continent, lost manufacturing, has Africa's largest coal deposits. Can't make a drawing pin!!!!!!!!!!
	Think about your country and think to solve this
