

ISC ROA and IAU OAD invite you to
an exploratory interdisciplinary workshop

Science 4 Development

Building bridges across disciplines

30-31 January 2020

**South African Astronomical
Observatory, Cape Town**

Register at
www.science4dev.org

Potential discussion topics:

- Local development challenges
- Evaluation of the impact of science on development
- Resources that could be shared across disciplines
- Policy considerations for interdisciplinary research
- Examples of successful interdisciplinary collaborations
- Bridging gaps between scientists and policymakers
- The role of industry in science-for-development
- The role of communities in science-for-development
- Science-for-development projects “on the ground”
